

# Unique Products

**A24T Long Life**

- Aluminum oxide grain
- General purpose grinding
- Longer life for fewer wheel changes
- For use on ferrous metals

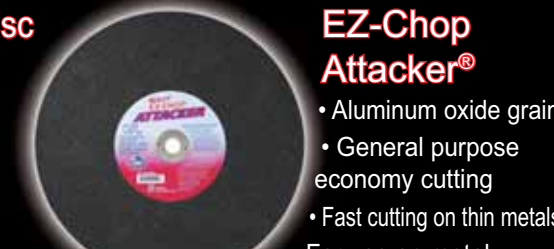

**Z-Tech .045" High Performance**

- So unique it has a patent
- Thin .045 width
- Special zirconium grain
- Hard bond for extremely long life and fast, burr-free cutting
- For use on ferrous and/or non-ferrous metals, stainless steel, and high tensile alloys

**Ovation® Flap Disc**

- Designed for softer, cushioned grinding, blending and finishing
- More abrasive material than standard flap discs
- Premium zirconium material for aggressive cutting and long life
- For use on metals, stainless steel, high tensile steel, titanium, and aluminum

**EZ-Chop Attacker®**

- Aluminum oxide grain
- General purpose economy cutting
- Fast cutting on thin metals
- For use on metal studding, thin rebar, light gauge and medium metals

**Saitech™ 8S Ceramic Fiber Discs**

- High performance, ceramic aluminum oxide grain, closed coat
- Very uniform, high density grain structure is extremely durable and self sharpening for long life and cooler cut
- Excels on hard to grind alloys, carbon steel, cast iron, stainless steel, and non-ferrous metals

# The Facilities

Our manufacturing facility in Willimantic, Connecticut is the heart of United Abrasives. With 9 plant expansions in the last 14 years our state-of-the-art

facility now spans over 400,000 square feet. To ensure extremely fast support and service United Abrasives' warehouses are located in Salt Lake City, Utah and Mississauga, Ontario.

Sait Abrasivi, our highly automated European headquarters located in Torino, Italy, manufactures bonded abrasives in a plant covering more than 200,000 square feet.

Our other European facility, located in Piozzo, Italy, is a coated abrasives plant, which is 250,000 square feet and manufactures over 300 types of coated abrasives (fiber discs, paper, and cloth).

## United Abrasives, Inc. / SAIT

- Privately held company established in 1970.
- Relationship with SAIT, an Italian corporation founded in 1953, began as we first manufactured coated abrasive belts.
- By 1975 we had expanded our production to include bonded abrasives.
- Well known worldwide for quality, consistency, and the highest levels of service.
- One of the largest and leading manufacturers of abrasive products in the world for both bonded and coated.
- Only use premium raw materials.
- Demand consistent manufacturing operations and have the most rigorous quality control testing in the industry.
- EVERY order is a RUSH delivery! From phone order to truck in minutes!
