Pipeline Wheels

AMERICAN MADE  INDUSTRIAL GRADE

www.UnitedAbrasives.com

1/8" PIPELINE WHEELS

All of our American-made 1/8" pipeline wheels are reinforced with the highest quality fiberglass for maximum safety and performance, and all are designed for both **cutting and light grinding** – eliminating the need for two separate wheels.

A24R PIPELINE

- Aluminum oxide grain
- **Designed and manufactured to perform both cutting and light grinding**

METAL Ferrous metals (steel, cast iron, etc.)

SAIT Z-TECH™

- Tough zirconium grain
- **High performance cutting and light grinding for the toughest applications**

METAL Ferrous metals (iron, steel, welds)

STAINLESS Stainless steel, high tensile alloys

SAITECH™ PIPELINE

- High performance, ceramic aluminum oxide grain
- Uniform, high-density grain structure is extremely durable and self-sharpening for long life and a cooler cut
- Manufactured with proprietary ceramic abrasive grain to outlast standard aluminum oxide wheels
- **Long life combined with versatility** for the pipeline industry

STAINLESS Stainless steel, high tensile alloys

METAL Ferrous metals (iron, steel, welds, etc.)

THE ULTIMATE PIPELINE™

- Features our proprietary grain and bond system
- Fast, free-cutting with long-lasting life
- **Premium performance cutting and light grinding for even the toughest applications**

METAL Ferrous metals (iron, steel, welds)

STAINLESS Stainless steel, high tensile alloys

.095" ULTIMATE COMBO WHEELS

Our .095 Ultimate Combo wheels are made right here in America and help increase productivity, providing you with 1 wheel to cut, notch, debur and light grind.

A60S ULTIMATE COMBO™

- Aluminum oxide grain
- Provides consistent performance with long life for cutting, notching, deburring and light grinding

METAL Ferrous metals (steel, angle iron, rebar)

Z-TECH ULTIMATE COMBO™

- Manufactured with tough zirconium grain
- High performance cutting, notching, deburring and light grinding for the toughest applications

METAL Ferrous metals (iron, steel, welds)

STAINLESS Stainless steel, high tensile alloys

PIPELINE BRUSHES

Our pipeline brushes come in both stainless and carbon steel wire with a stringer bead twist for high impact.

Stainless steel is ideal for use on stainless and high strength alloys, while carbon is primarily used for cleaning, deburring and scale removal.

METAL Ferrous metals (iron, steel, welds)

STAINLESS Stainless steel, high tensile alloys
